To Whom It May Concern:

MSA P/N 14318 is a refill package of 6 charcoal cartridges that are used with an MSA Explosimeter. These cartridges are considered an article as defined in 29 CFR 1910.1200 (c). Articles are exempt from the OSHA Hazard Communication Standard and therefore no MSDS is required for this item. In order to aid in your understanding of the contents of these cartridges, the following table lists chemical components within each cartridge at the time of manufacture.

CHEMICAL COMPONENTS	QUANTITY Per cartridge
Activated charcoal	~ 3 grams
Paraffin dipped paper	balance

Please note that the environment in which you used the cartridge may have affected its contents and that it is your responsibility to dispose of the scrubber in accordance with local, state, and federal laws and regulations. Please provide this information to your regulatory affairs and/or safety officer.

Should you have additional questions, please contact MSA at the above telephone number.
